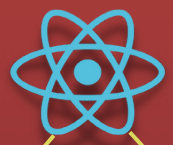
React Roadmap

*Note - Learn JavaScript before starting React JS

Saif Mujawar
@webbysaif



Functional

Class

JSX

components

Props and state

BASIC

LISTs

LifeCycle

Conditonal Rendering

Saif Mujawar
@webbysaif

- Package Managers
  - npm
  - yarn
  - pnpm
- webpack
- Build Tools
- styling
- CSS Frameworks
  - Bootstrap
  - Material UI
  - Bulma
  - Chakra UI and others
- Moderate
  - Hooks
    - useState
    - useEffect
    - useRef
    - useMemo
    - useCallback

Saif Mujawar
@webbysaif

- Routers
  - React Routers
  - Reach Routers
- API Calls
  - Axios
  - Unfetch
  - Superagent
- Mobile
  - React Native
- Forms
- Intermediate
  - Custom Hooks
  - Advance Hooks
    - useLayoutEffect
    - useContext
    - useReducer

Saif Mujawar
@webbysaif

- React Testing Library
- Cypress
- MobX
- Redux
- Context/ state
- Jest
- Testing
- React Final Form
- Formik
- React Hook Form
- State Management
- complex Forms Management
- Advance
- Error Boundaries
- Component Patterns
- Portals
- Higher order Components
- render props
- Compound Component

Saif Mujawar
@webbysaif

Oh yes you are still young😉

- SWR
- Apollo GraphQL
- React Query
  - Now known as Tanstack Query
- Advance API Management

Further On

- SSG/SSR
  - Next JS
  - Gatsby
  - Remix

Saif Mujawar
@webbysaif

React Routers

Build Projects by applying all you have learned

Get experties in Googling very important and read blogs and articles by Senior Developers

Up and on going

Learn React native if you are interested in building mobile apps😍

Last but not the least learn HTML, CSS and JavaScript thoroughly before starting any frontend frameworks/libraries
