# The Power Of Web 3.0

Swipe

You might heard about the term  
**Web 3.0**, but don't know what is it .

*swipe if you wanted to know*

Give this post a like  before moving forward

# WEB 3.0

*Internet powered by Blockchains*

Yes, the same technology is used in  
cryptocurrency

In **web 3.0** you have the control over  
your privacy.

Means its totally upto you to keep or sell your  
data to advertisers and then earn some  
profite from it.

**Web 3.0** gives you this power

# DAO in Web 3

*(decentralized autonomous organization)*

DAO is one of the revolutionary feature added in **web 3**.

DAOs in **web3** gives people the real flexibility, it let people govern, work, hire, design and allocate resources collectively.

In other words you can choose which features should be added in a particular app or website.

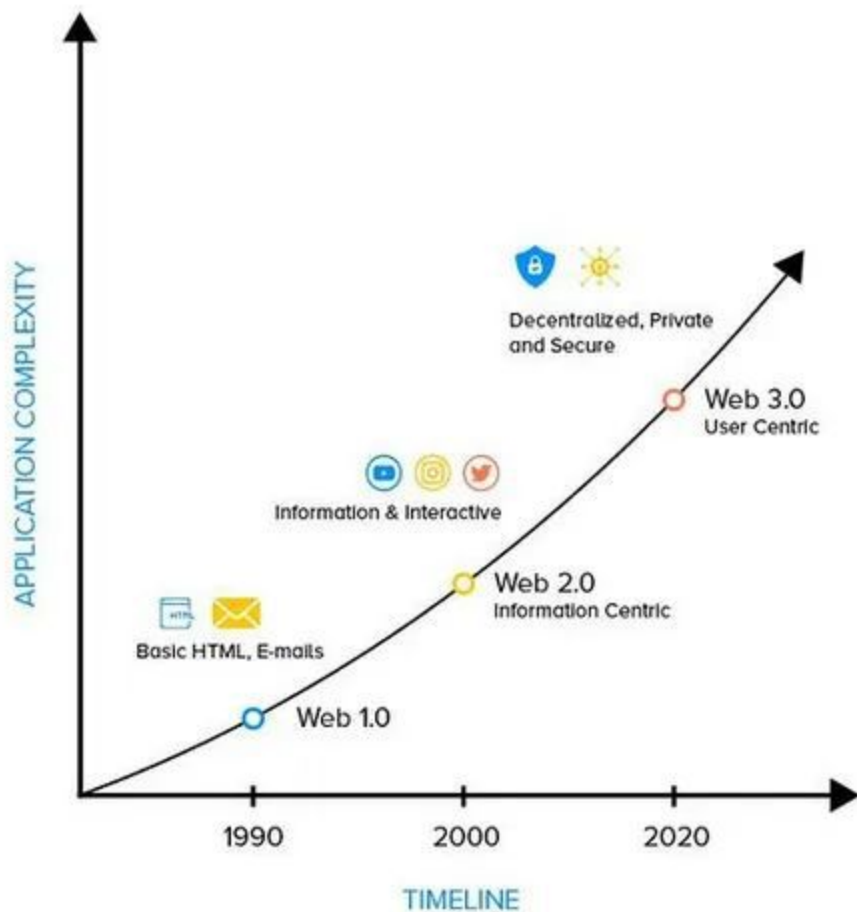

Seems pretty cool right? 😍
